Portfolio: <https://andreyn07.github.io/portfolio>

Results-driven cybersecurity professional completing a B.S. in Cybersecurity at Southern New Hampshire University (Nov 2026). Combines hands-on logistics and operations experience — including regulatory compliance, risk management, and data-driven decision-making — with a rigorous academic foundation in network security, cyber defense, OS hardening, application security, and security risk management. Eager to transition technical and operational expertise into a dedicated cybersecurity role.

Technical Skills

Cybersecurity: Network defense & monitoring, OS hardening, application security, intrusion detection/prevention (IDS/IPS), TLS/PKI implementation, risk management frameworks, security auditing & compliance, vulnerability assessment, digital forensics fundamentals, social engineering awareness

Networking: TCP/IP, network architecture & design, Cisco Packet Tracer, VLANs, firewalls, information flow controls

Programming & Scripting: C#, Java, JavaScript, TypeScript, ASP.NET/MVC/LINQ/Entity Framework, security scripting/automation (bash/PowerShell concepts)

Web & Database: HTML5, CSS, jQuery, SQL Server, MS Access

Tools & Platforms: Power BI, Visual Studio / VS Code, Microsoft Office Suite, Adobe Photoshop / Lightroom

Languages: English (fluent), Russian (native)

Experience

Operations II at Cencora | Jul 2023–Present

- Apply risk management and data-driven assessment methodologies to identify, evaluate, and mitigate supply chain disruptions — directly translating to security risk frameworks (NIST, ISO 27001).
- Enforce regulatory compliance with FDA and CBP requirements, developing an operational mindset aligned with security compliance auditing and policy enforcement.
- Maintain strict Good Manufacturing Practices (GMP) and cold chain integrity for temperature-sensitive pharmaceuticals, demonstrating attention to security controls and procedural adherence.
- Coordinate cross-functional supply chain activities for life-saving medicines, leveraging stakeholder communication skills applicable to communicating security findings and recommendations.
- Drive process improvement initiatives, reducing costs and increasing efficiency — mirroring security program optimization and continuous improvement.

Freelance at LabraDomain | Apr 2022–Apr 2026

- Designed, developed, and deployed a production website using HTML5, CSS, and JavaScript with a focus on usability and secure design principles.
- Managed end-to-end web presence including branding, image security (watermarking via Adobe Photoshop), and digital marketing via Google Ads.
- Applied application security awareness in web development — validating inputs, managing assets, and ensuring a trustworthy user-facing experience

Dispatcher at Mobi Express | Nov 2022–Jul 2023

- Directed fleet operations and ensured full DOT regulatory compliance, building expertise in structured compliance auditing and procedural enforcement.
- Maintained and optimized electronic databases to track fleet activity, reinforcing data integrity and access-control best practices.
- Streamlined reporting workflows, reducing administrative overhead through process automation — a foundational skill for security operations efficiency.

Education

Southern New Hampshire University — Online | Expected: November 2026

Bachelor of Science (B.S.), Cybersecurity

CYB-200 Cybersecurity Foundations | CYB-210 Computer Networking | CYB-220 Network Security | CYB-230 Operating System Security | CYB-240 Application Security | CYB-250 Cyber Defense | CYB-260 Legal & Human Factors of Cybersecurity | CYB-300 Systems & Communications Security | CYB-310 Network Defense | CYB-400 Security Assessment & Auditing | CYB-410 Security Risk Management | IT-450 Artificial Intelligence; Upcoming (Aug – Oct 2026): CYB-320 Incident Response & Digital Investigation | CYB-420 Enterprise Security

Delaware County Community College | Jan 2021 – May 2025

A.A.S., Computer Information Systems — Programming

Relevant coursework: C++, Java, PC Support, Web Design, Database Management

American Advanced Institute of Technology | May 2018 – Feb 2019

Certificate, Microsoft .NET Software Development

Focus: C#, .NET Framework, SQL
